DEDICATED PROJECT MANAGER

Doing business together shouldn't be complicated. Every account at Midwest Stone is assigned to a specific project manager with a proven track record in working on Commercial Projects.

One point of contact manages your order, from spec to slab to fabrication to installation.

PRODUCT BASICS

- US Manufacturing
- Domestic or Overseas Suppliers
- .75" or 1.25" Slab options
- Natural Stone & Quartz
- Quality Sink selections
- Custom Edge profiles

QUALITY WORKMANSHIP

Our fabrication shop has been in operation for 15 years. Every piece of stone that runs through our shop is laser measured, custom cut, polished, and installed.

We have all our own employees, we not use sub-contractors like many other companies.

We specialize
in ramping up
to our client's
needs.

MIDWEST STONE'S robotic technology allows us to custom fabricate up to 3,000 square feet of stone in our 20,000 sq. ft facility per day.

We have a Baca double bed water jet that outputs 60,000 psi and cuts stone at 180 inches per minutes, a Titan CNC router that routes, shapes, or polishes any edge profile, a fastback edge polisher that can polish 50 inches of lineal feet per minute,

a Yukon bridge saw for cutting both straight & mitered edges, multiple hand polishing stations and overhead cranes to help streamline your job.

We can fabricate 50 kitchens a day and install those same kitchens in 1-2 days.

We pick up the slack for other trades and always put our clients first.

What makes us different than other fabricators is that our facility is geared specifically towards multi-family and commercial projects.

Because we're volume driven, our economies of scale let us pass better value onto you.

MIDWEST STONE Process

Approximate lead time is 90 to 120 days from when the order's placed with our overseas factory.

If this doesn't meet your schedule requirements, we can procure your material domestically within 30 days or less.

**We want to be your preferred supplier.
And we're ready to earn your business.**

At MIDWEST STONE, we understand the volatility of the commercial construction trade. We've seen what happens when one trade gets behind, everybody gets backed up.

What makes us unique is our ability to ramp up to our client's needs.

We've built our company to accommodate the changes in your schedule. The owners of MIDWEST STONE have been involved in multi-family and commercial projects for over 15 years and understand the workflow that's required on a commercial site.

Come take a tour of our facility.
